

# COVID-19 Clinic Closure effective March 20

## To Our Valued Patients & Guests...

To protect you, as well as the doctors and staff, our glasses dispensary will be closed until April 13.

In an effort to care for Comox Valley patients and citizens in need, and to reduce hospital ER demand, our Doctors will be available for:

**URGENT CARE ONLY by appointment  
(250) 890-2020**

*(Tuesday, Wednesday, Thursday 10-2)*

Those with routine examinations and lower priority visits already booked, will be called to reschedule.

### URGENT CARE ONLY:

Please call us at 250) 890-2020 and speak to our team or leave a message detailing the nature of your urgency and our staff or Doctors will triage messages and contact you quickly; appointments will be made on a case by case basis. We're here to listen! **Should you have an appointment for URGENT CARE, we welcome you, but ask that your drivers and companions remain in their vehicles or outside.**

### Contact Lenses:

if you are in need of contacts, please leave a message at the above number and we will happily order for you and have shipped directly to your home. If your prescription has expired we will extend a short term renewal without an assessment to see you through until operations return to normal.

### Glasses pick up:

if you are expecting glasses or contacts, you will be called by our staff to arrange an appointment to pick up. An optician will be responding to all messages.

### Pharmaceuticals:

prescriptions for glaucoma, dry eye and allergy medicines will likely be renewed without us seeing you by your pharmacist. If problems, please contact us for a refill.
